3 **Insect repellent**

4

5 A natural and non-toxic composition is described which  
6 has surprisingly superior and super additive  
7 effectiveness over conventional insect repellents. In  
8 one embodiment, the composition is comprised of a mixture  
9 of essential oils, including lime oil, myrtle, citronella  
10 oil, eucalyptus oil and neem oil in a carrier oil.  
11 Alternatively, the neem oil may be used as a carrier oil.  
12 The composition may be provided in the form of a spray or  
13 topical cream.
